EXPERIENCE

Associate Software Engineer

Marlabs Innovations Pvt Ltd

📅 04/2021 - 09/2023 📍 Bangalore

- Exceeded goals through effective task prioritisation and great work ethic.
- Quickly learned new skills and applied them to daily tasks, improving efficiency and productivity.
- Designed and developed reusable software components which used in many different project with reducing development efforts.

PROJECTS

Merck SRM Implementation

Created an Application on top of Salesforce to provide smooth transactions between suppliers and their relationship managers. I used Salesforce Platform, Experience Cloud, Apex programming, Salesforce Flows and Salesforce lightning to build this application.

Bunge CPX

The Bunge team wants to improve their sales & customer experience through quote & contracting processes by optimizing real-time analytics and quoting from the salesforce platform, allowing sales, price, product management. This implements salesforce manufacturing cloud with updates to the existing sales & services process to configure a user-friendly quoting process and integrate with downstream systems and to improve the sales and forecasting process.
